Josh:

Here are my edits so far – I'm up to the risk sections. Oh my. I wanted to send this to you so you can start to see some of my thoughts. I think we'll need to talk about how the data are presented in the RI section, so that it's presented consistently. I'll keep working on this, but I'm ending work soon, and I won't get to finish everything today, but I wanted to send you what I had so far.

Subject: Proposed Plan

Hi Everyone,

Attached is the proposed plan so far. It is far from complete but since we have time to work on it this week I figure I will send it out. Obviously, there are large sections missing to be filled in later. I highlighted portions green to note what needs to be done after we receive the FS.

Also, to be honest, I am struggling translating the RI results into something understandable for the public in the proposed plan. Also, I asked Marian to shorten the HHRA section.

Josh
